UNITED STATES DEPARTMENT OF AGRICULTURE  
DIRECTOR OF EXTENSION WORK  
WASHINGTON, D. C.

October 17, 1931

TO COUNTY EXTENSION AGENTS:

At this season, it is the custom to take inventory of the progress that has been made during the year. Of the 845,000 members, whose enrollment in 4-H club work was reported last spring, a large percentage, no doubt, completed all 4-H requirements in 1931. They are a credit to you, to your local leaders, to the extension service, and to the Nation.

To honor their achievements this year, a nation-wide radio program will be broadcast on November 7. This program will be conducted jointly by the Department of Agriculture and your State extension service, each being responsible for 30 minutes of the program. An announcement of this program is inclosed. It includes the names of speakers and the music on the Federal portions of the broadcast. The details of the 30-minute State program probably have already been sent to you by the State extension service.

Possibly you have already advised the club members and local leaders in your county about the 4-H achievement celebration on November 7. If you have not, I suggest that you do so. It would also be very helpful if your local newspapers were informed about the plans.

In many places where all 4-H club members do not possess radios, they are planning to come together in group meetings about some centrally located radio set to listen to the State and Federal programs. Possibly some of your club groups may wish to do this and to organize local 4-H achievement programs for their meetings that will supplement the State and Federal programs.

Very truly yours,

A handwritten signature in cursive script that reads "C. W. Warburton".

C. W. Warburton,  
Director of Extension Work.

Inclosure.
